Peary to send news of his venture.

Thrilling Ascent.

Julian R Thomas, of New York, last week made a daring ascent in a balloon. The bag had to be inflated in Augusta, Ga. and it was intended to tow it several miles to the fair grounds, up the canal. The stream proved too narrow and the bag caught in the trees. Mr Thomas climbed into the net work and cut away the basket. He arose like a shot and traveled in a southwesterly direction to a height of 5,000 feet. When about seven miles from Augusta the valve, which had been damaged on Monday, began leaking and the aeronaut shot downward rapidly. Thomas cut off his shoes and heavy leather leggings and threw away his coat and the contents of his pockets. The descent was little checked and he came down in the middle of a field. The balloon then started across the field dragging Thomas nearly a quarter of a mile before he could extricate himself. He was lacerated but not seriously injured.

Seven Killed.

Seven workmen were covered by a landslide on the Dry Fork branch of the Norfolk & Western, twenty miles from Jaeger Tuesday morning. Four bodies have been recovered, these men being drowned by being carried into the flood of the Dry Fork river which was out of banks. The other three bodies have not been found.

A gang of nineteen men were employed at this point clearing a small slip that covered the track and while at work a strip of 300 feet of track and mountain side let go and plunged into the raging flood below. Twelve of the men succeeded in gaining safety after a hard fight against the swift waters. It was some hours before a rescuing party could be put to work owing to the fact that all telegraph lines are down on account of the storm. Three bodies are supposed to be under the avalanche. The names of the victims could not be secured.

and Lambert has a pretty bad reputation.

Hand Shot Off.

Roy the 14-year-old son of Everett Miller met with a most serious accident on Monday afternoon. He had started hunting and in crossing a rail fence was holding his gun by the muzzle with the butt resting on a rail — The gun slipped striking the hammer on the fence which caused the gun to explode and the entire charge of shot tore through his left hand. It was found necessary to amputate the hand at the wrist, which was done by Dr. Beard, assisted by J. W. Hutcheson.

The boy met with a serious mishap, on a previous occasion when he was run over and had his head mashed by a wagon. His father, Everette Miller has also suffered the loss of one hand,

Trains Lost.

For several hours this week both
passenger trains on the Greenbrier
division were lost to the officials of
this road and no one knew their
whereabouts.

The trains were caught between
slides between Hosterman and
Cass and were hung up all night.
The wires were torn down and no
messages could be gotten through
by telegraph or telephone. The
slides were cleared the next day
(Thursday) and the trains were
allowed to proceed. In the mean
time a special train consisting of a
box car and a passenger coach was
run through from Ronceverte
several hours late.

J. B. Pyles came near having his sawmill burned to the ground Thursday night of last week. The mill is located on Beaver creek. The fire is supposed to have caught from the slab pile. The fire was discovered before bed time but was supposed to have been put out. It got a fresh start later in the night and did considerable damage before it was discovered and the flames stayed.

saw or file was taken in the jail by the two prisoners who were arrested at Durbin last week.

Jack Coughlin, the well known lumberman, narrowly escaped death one day last week near May. He was woods superintendent for a lumber company there and was watching several of his teams sliding logs across the railroad track. A team was coming close to the railroad and Jack saw the passenger train approaching and ran up the track in attempting to stop the team. Before he could get the team stopped the train was upon him and knocked him from the track. A bone in his arm was fractured and he was otherwise injured. He was taken to the Elkins hospital and has so far recovered as to be able to be in Marlinton this week.

The prisoners in the county jail who were sentenced to hard labor are now at work on the rock pile. When first taken out they all bucked except one—Frank Furbee and refused to work. When

WHISTLE

BURNED

Boy Playing Magician Gets Mouth on Fire With Gasoline.

In attempting to blow a stream of fire out of his mouth, in imitation of a trick he had seen performed on the stage, Merle Friddle, the 14 year-old son of Hyde Friddle, was painfully burned on the face and neck early yesterday morning at his father's restaurant on Main street.

Merle tried to do the trick by applying a lighted match to a thin stream of gasoline which he squirted from his mouth, trusting at the same time to strong and steady blowing to keep the flame at a safe distance from his face. Whether his lung power failed him or the gasoline proved more highly inflammable than he had anticipated, are problems that are still puzzling the boy. He is certain of one thing, however, and that is that his experiment was a dismal and disastrous failure.

Instantly upon the application of the match, the flame was in the boy's face. It burned the skin from his cheek bones, blistered his lips, rendered his neck and jaws raw, and scorched his eyebrows and hair.

Mr Friddle, the boy's father, standing in front of the restaurant, heard his son's screams. He ran in and found him prostrate on the floor. Picking him up, he hurried to the office of Dr. T. C. Firebaugh, where the injuries of the venturesome little unfortunate were dressed.

It is believed the boy's eyes were not injured.—Harrisonburg News.

Some Very Old Whiskey.

While digging after a sassafras root on the bank of Elk near the Webster Springs Hotel one day last week, A. G. Cogar uncovered a pint bottle of "homemade" corn whiskey, which he believes to have been hidden in the roots of a tree.

GENERAL ORDERS

Issued to United Confederate Veterans Reunions in Reunion at Richmond, Va.

Headquarters W. Va.

Division, U. C. V.

General Order

All old Confederate soldiers of this Division will desire to attend the grand Confederate Reunion, to be held in historic old Richmond, Va. from May 30th to June 3rd inclusive during which the monuments to President Davis and Gen J. E. B. Stuart will be unveiled.

It will be a great memorial occasion, and Richmond will give a Virginia welcome to the old Veterans.

The committees in charge are anxious to provide for all who may attend, and to have order and system throughout the reunion.

It is therefore requested that Commanders of Camps will, at as early a day as practicable, give to Col A. C. L. Gatewood, Adjutant General, Linwood, Pocahontas county, W. Va. the following information:

Name of your Camp and its Commander

Will you attend as a Camp? If so the number. If not, the number of delegates

The number of ex-Confederates in your vicinity who expect to attend.

The number and kind of musicians you will take.

Route of travel, and time of arrival at Richmond.

Quarters in Richmond will be provided

Let old Veterans remember the past, and embrace, perhaps the last opportunity "to clasp hands with their old Comrades in war.

ROBERT WHITE,

Maj Gen. Commanding
A. C. L. GATEWOOD,
Adjt General.

MARLINTON, WEST VIRGINIA, MARCH 22, 1907

KILLED AT WILDELL.

Killed Man Meets Death Beneath the
Wheels on Log Road.

Ray A. Lawton, son of J. W. Lawton, lumber manufacturer at Wildell met death on his father's log road Monday, March 19th about 6 o'clock in the evening. He was bookkeeper and buyer for the firm of Moore & Lawton, but while not having any office work to do he worked on the yard and at other jobs to keep himself employed.

The engine had come in with two cars of pulp wood and young Lawton had cut the cars loose from the engine intending to leave them standing on the side track till morning. He then got on the foot board of the engine to throw the switch after the engine had gone off on to another track. The cars got loose and ran down on the engine which was running very slow and it is supposed that when they hit the young man he let go his hold and fell on the track, the cars passing over him. His father was a witness to the accident and with assistance took the unfortunate young man to a nearby house. The father then went to inform the rest of the family and upon his return less than thirty minutes the young man was dead.

The unfortunate young man bore an excellent reputation and had bright prospects ahead of him and but for his untimely death would have no doubt become one of this county's most influential business men, as the firm he worked for trusted him with all their business matters. At the age of 16 he successfully taught school in Armstrong county, Pa. He was a member of the Presbyterian church and of the order of Maccabees. He was 20 years and 9 months of age. His funeral was conducted at Elkins last Friday by the members of the fraternity to which he belonged.

Girl Drowned on Way to School.

Miss Lydia Sharps, a step-

VERDICT FOR \$3000

Given Against Chesapeake & Ohio Ry. for
Killing of Robert Lane.

Last week the jury in the case of J. C. Lane, administrator, against the Chesapeake & Ohio railroad for \$19,000 damages, brought in a verdict for the plaintiff awarding them damages to the extent of \$4,000, or \$2,000 less than the amount sued for by the plaintiff. The case will be appealed to the supreme court of appeals.

This case has attracted the attention of the circuit court since Monday. The case comes from the killing of Robert Lane by J. L. Howery, a special officer employed by the Chesapeake & Ohio railroad and used on the train for the preservation of order. The killing happened on December 23, 1905. Lane had been to Charleston and was returning home up the river when an altercation ensued and at Malden, Howery shot and killed Lane. Howery was convicted of manslaughter and was sentenced to a term of eight years in the penitentiary at Moundsville and is now serving his sentence.

After the sentence had been executed on Howery, J. C. Lane, administrator of the estate of Robert Lane filed a suit in the circuit court of this county for \$10,000, setting forth that Howery was in the employ of the Chesapeake & Ohio railroad and that the company was responsible for its agent. The trial began last Monday before Judge Burdette and continued until last Wednesday night when a night session was held for the purpose of disposing of the case. Many witnesses were examined in the past three days and the case went to the jury about 9:45 p. m. Fifteen minutes later they returned a verdict and judgment for \$3,000 for the plaintiff. Attorneys Alderson, of Charleston, and Sims and Enslow, of Huntington, represented the railroad company and Attorneys Belcher and Middleton the plaintiff.

LAUNDRY BURNED.

Fire Monday Night Does Much Damage
to Marlinton's New Steam Laundry.

Flames were discovered last Monday evening at seven o'clock issuing from the Marlinton Steam Laundry building on Camden ave. Before the fire department had the flames under control damage to the extent of nearly \$2,000 had been done.

In less than five minutes after the flames were discovered and before the alarm was sounded from the tannery and the electric light plant No. 1 hose company was at the scene of the fire and had a stream of water playing on it. Number 2 company from the tannery got to the fire about five minutes later and shortly after No 3 company was on hands but their services were not needed as the fire was then under control.

The fire originated in the machine room but the origin of it is a mystery. The laundry quit

at about 10 o'clock that evening as

day to be present at the closing exercises of the school at that place today. He will deliver an address before the School Improvement League this afternoon and one at the opera house tonight at the commencement exercises.

Hammond Mann met with a serious accident yesterday by being thrown from a colt which he was riding. He and Rex Kincaid were riding along the road together between here and Campbelltown and the colt becoming restive was spurred by his rider. This made the colt fractious and Hammond was thrown, his head striking a rock in the road. The accident happened near Mrs. Cunningham's and he was carried into her house but later was removed to the Marlinton Hospital where it was found that the skull was fractured. An operation was performed and a piece of skull bone was removed from his brain. As we go to press this (Friday) morning Mr. Mann has regained consciousness and is resting easily.

Leroy Hodson, claiming Virginia as his home, was arrested by conductor J. W. Goodwin, of train

Ed and Joseph Jonson were in
Marlinton this week from Warn's
lumber camps on Cranberry. They
gave us a short history while here
of young Marritto Jonson who was
killed two weeks ago while jump-
ing from the passenger train while
in motion above Seebert. Al-
though raised about three miles
from the birthplace of the dead
man, they are not related. Mar-
ritto was born near Calmar, in the
south-eastern part of Sweden, and
was the son of a well-to-do farm-
er. In fact his father had a large
farm and was considered very
wealthy. His elder brother had
charge of the farm and the two
brothers could not get along very
well together, so Marritto came to
America. This was six years ago.
He went first to Pennsylvania and
about three years ago came to this
state where he worked until the
time of his death. His country-
men say that he did not have to
work but had he remained at home
he could have lived in compara-
tive ease. He intended to return
to his native country in the fall.

Bad Passenger Wreck.

Passenger train No. 148 due here at
8:10 a. m. was wrecked on the curve just
west of Stony Bottom last Saturday morn-
ing, resulting in injuries to the engineer
and fireman, the latter's injuries being
quite serious. None of the rest of the
train crew were injured and all the pass-
engers escaped injury. The engine and
baggage car were total wrecks.

As the passenger train was rounding
the curve about a half mile below Stony
Bottom a large rock rolled from the cliff
directly in front of the engine. The
engine struck the rock before engineer R.
P. Boyd could reverse it and was thrown
into the river twenty feet below. The
baggage car was also thrown over the
bank. Fireman D. M. O'Leary was car-
ried into the river under the engine and
had it not been for the fact that his body
was submerged in the water he would
probably have been scalded to death. As
it was he was pretty badly scalded and
also cut about the head. He was brought
to the Marlinton Hospital and later remov-
ed to the Hinton Hospital where he is
now making a slow recovery. Engineer
Boyd's injuries were slight a cut on the
right arm being the extent.

Killed in Tennessee.

Lacy Fitzgerald, a son of Schuyler Fitzgerald, of Greenbank, was killed in the lumber woods in east Tennessee last Thursday. Reports of the accident are conflicting. One report was to the effect that a log was swung through the steam loader on which he was working while another states that the loader was in a wreck.

Fitzgerald was about 32 years of age and leaves a wife and two children. His body was brought to his home at Greenbank this week for burial. Interment was at Wesley chapel Tuesday, services being conducted by Rev. W. C. Sponaugle.

ENGINE BLOWN UP.

Two Men Injured When Steam Lets Go.

Northfork.—One of the new style
M. engines exploded, scalding Joseph
Reese, the engineer. C. S. Brooks, his
fireman, was not badly injured and
was able to go to his home. Engineer
Reese was quite badly burned about
the face, hands and arms, but after
his injuries had been dressed he
showed so few ill effects.

The cause of the explosion will be
investigated. It is believed that low
water was responsible, although it may
be that the crown sheet blew down,
as has occurred before with this class
of engines, which do not blow up as
ordinary engines do but blows down-
ward.

KILLED BY THE CARS.

Bluefield.—David Lambert and B. F.
Allen, of Crumpler, were ground to
death under the wheels of an extra
which approached the men unseen just
as they stepped from the west bound
track to escape an oncoming west
bound train.

The fine dwelling house of R. C. Shra-
der, near Dilley's Mill was burned to the
ground Thursday afternoon, April 27.
The fire is supposed to have started from
the kitchen flue, and when discovered was
too far advanced to check by the means
at hand. A part of the contents were
saved. The house was one of the largest
and best in the community. The loss is
at least four thousand dollars with insur-
ance for a thousand dollars.

companies in this section. He has always borne a good reputation for honesty and his friends hope he may yet return and straighten up his affairs satisfactorily.

P. H. Shughrow, of Ronceverte, brakeman on the local freight, was painfully injured last Saturday morning at Seebert. His train had followed the passenger train into Seebert and the crew of the passenger had unloaded some trunks on the platform leaving them standing too near the edge. In attempting to board his train Shughrow had his foot caught between the rapidly moving train and one of the trunks. He was brought to the Marlinton Hospital where an examination showed a compound fracture of one of the ankle bones. He was later taken to the Hinton Hospital where reports this morning say he is getting along nicely.

ed Monday of this week. The trestle is a long' one and it took until Wednesday afternoon to get a new one in. The mill had to shut down Wednesday to wait for logs.

Remus Rogers was brought to the Marlinton Hospital Sunday suffering from concussion of the brain. He is working at Denmar and in riding for a doctor he was brushed from his horse by an overhanging limb. He is getting along nicely at present.

Frank Anderson, W. L. Dearing and R. A. Kramer were fishing on Williams river three days this week. Two days were spent below Ken's creek and one day at the "Meadows". In all about 300

was particularly heavy. The dry weather was becoming a serious proposition when relief came. Scarcely a drop of rain fell for a month and grass and other vegetation was becoming parched and withered.

Vance, the 13 year old son of Mr. and Mrs. J. A. Dennison, of Depmar, had his right arm torn off by getting caught in the shafting of the cut-off saw at the mill of the Maryland Lumber Co. last Friday morning. The little fellow was brought to the Marlinton Hospital and his arm was amputated at the shoulder. Young Dennison is a son of the president of the Maryland Lumber Co, and members of the family are here now staying until he is able to get out of the hospital which will be but a short time on account of his remarkable courage and strong vitality.

"Sunnyside Park"—They're all talking

That the committee shall itself select secretary either from its members or from some one outside of its members, as the committee deems best.

It shall be understood that any member on the committee who shall not be to support by labor and influence as well as by vote the entire Republican ticket is nominated and goes out and declares himself opposed to any member on the ticket, the same shall be construed as resignation and the committee shall strike the name of said person from the ticket and insert in lieu of his name the name of one who is in sympathy with the ticket and will work for the interest of the party and ticket that is nominated. At the chairman or members of the committee in primary or caucus or any method for nomination of candidates shall not be partisan and shall not take sides for any particular candidate or the interest of any particular candidate as a partisan, but is entitled to the right of a citizen to choose as he pleases among the candidates, provided that his support is not such as will make a partisan of the party and after nomination support the ticket nominated or be on the list as above provided.

All members of the committee shall work in harmony and to the interest of the party and will do whatever they deem fit, intimate, honest and honorable to the interest of the Republican party in distributing literature, speaking of conditions as they exist and to the voters interested and to the voters who voted for the interest of the

came off one of the valves letting it drop down in the cylinder. The piston drove it up against the cylinder head so hard that it made a Chinese puzzle out of it. A new one was ordered from the factory at a cost of \$1.65. At the same rate we figure that an engine, the original cost of which is \$120, if bought piece at a time will cost \$411.44.

A freight engine broke a rail while shifting yesterday morning at Richardson's store and was thrown off the track. It ran twenty or thirty yards on the ties before it was stopped. It was several hours before it was again gotten on the rails.

Hurt by Blast.

Mr. Pryor, walking boss on the grade of the Greenbrier & Elk River R. R. was badly injured on July 5th.

He had set off a blast and with the right of way boss had taken refuge behind a log. The log was up off the ground a foot or so, and the shot instead of blowing upward, as they had judged, blew sideways. A heavy piece of stone was blown under the log and hit Pryor on the side of the head. He was knocked senseless but has so far recovered as to be able to be around, but is able to speak only three or four words and these indistinctly. It is supposed that the skull was fractured and pieces of bone are resting against the brain. An operation will likely be resorted to before he is completely cured.

They Didn't Advertise.

Mary had a little lamb; its fleece was white as snow; it strayed away one pleasant day where lambs should never go. And Mary quickly set her down, and tears streamed from her eyes; and never found her lamb because she did not advertise. Mary had a brother John, kept a village store; and set him down and

watched the open road. He passed along. John simply blinked his eyes. The sheriff closed his eyes near, and sympathetic. He told, why out their from year to

public knows the real truth of the now, for the first time since the was committed. The man under will be tried jointly for the murder Detective Horton.

Front.

Dwelling House Burned.

The home of Randolph Hamrick on
 Stamping creek was burned to the ground
 last Wednesday evening. Little was sav-
 ed from the flames. The loss is about
 \$800 with no insurance. Mr. Hamrick will
 rebuild at once.

The family had jurt finished eating
 supper when flames were discovered issu-
 ing from the roof. The fire started from
 the kitchen flue. Neighbors came to the
 rescue and assisted the family in saving
 everything in the lower part of the house
 except the dishes and a few other smaller
 articles. Nothing was saved from up-
 stairs. Owing to the scarcity of water it
 was useless to attempt to put out the fire
 and work was confined to carrying the
 household effects from the house.

These claims are deemed excessive. The court postponed action on this matter until such time it is satisfied that the cost of the right of way will not be a prohibitive bar to building the road, whether the rights are acquired by ordinary purchase or condemnatory proceedings.

Arm Badly Injured.

Chas Coyner, an employe of the Campbell mill, had one of his arms badly hurt last Saturday by having it caught in the rolls of the re-saw.

He had but recently been promoted to the position of re-sawyer and had been working in his new position only a couple of days when the accident happened. No bones were broken but the arm was badly mashed. It will be a month or more before he will be able to work.

Pretty Good Traveling.

L. S. Shoemaker made a pretty good run in his Ford automobile Saturday. He and his wife went to their former home in Harrisonburg, Va., to attend the annual camp meeting now being held there.

They left Saturday morning and arrived in Harrisonburg. They made a short stay in the evening and stayed there until Sunday morning when they would have made Front Street but one of the tires was flat. The next morning they continued their journey arriving at their destination 300 miles from Marlinton Sunday morning at 10 o'clock.

Automobile Accident.

D. B. Puckhannen, a carpenter, was
knocked down and run over about 5
o'clock Thursday evening by Dr. F. T.
McClintic's automobile. The accident oc-
curred at the street crossing between the
two banks. The car driven by Dr. Mc-
Clintic was coming up the street toward
the railroad. He had given warning for
the Third avenue crossing and his atten-
tion was called in another direction. As
he came into Third avenue he looked
ahead and saw the unfortunate man di-
rectly ahead in the path of the car. It
was then too late to stop or turn aside.
The car struck him and knocked him
down and the front wheels passed over
his hips. He was hurt internally and an
operation was necessary. He was operated
upon by Drs. Yeagers and Howard and
is now getting along nicely. Dr. McClin-
tic regrets the accident exceedingly and
is looking after the comfort of the injured
man and providing him with the best of
medical attention.

Latest reports from the Big Ship Titanic that foundered off Newfoundland is that only 868 lives were saved. The ship only carried 20 small boats and into these were crowded the women and children. It is an unwritten law of the seas that the women and children should be removed first. The survivors are on board the liner Carpathia which is a slow vessel but was expected to arrive in New York last night. Very little authentic news can be learned owing to the fact of storms along the Atlantic which interferes with the wireless service. As soon as this ship arrives the world will know the history of this awful sea disaster.

"FOOD," ISMAY'S FIRST WORD

Rescued White Star Line Official Hungry When He Reaches the Carpathia.

New York, April 19.—"For God's sake get me something to eat. I'm starved. I don't care what it costs or what it is, bring it to me."

This was the first statement made by J. Bruce Ismay, directing head of the White Star line, one of the few men rescued from the Titanic, a few minutes after he was landed on board the Carpathia.

It is vouched for by an officer of the Carpathia, who requested that his name be withheld.

"Mr. Ismay reached the Carpathia in about the tenth lifeboat," said the officer. "I didn't know who he was, but afterward I heard the others of the crew discussing his desire to get something to eat the minute he put his foot on deck."

"The steward who waited on him, McGuire, from London, says Mr. Ismay came dashing into the dining-room and, throwing himself into a

chair, said: 'Hurry, for God's sake, and get me something to eat; I'm starved. I don't care what it costs or what it is, bring it to me.'"

BABY GIRL SAVED FROM SEA

Child Found Wrapped in Blanket by Titanic Survivors in Lifeboat—No Identity Marks.

New York, April 19.—Among the first passengers off the Carpathia was Miss Margaret Hays of 304 West Eighty-third street, accompanied by G. M. Tucker, Jr., of London. Mr. Tucker carried in his arms a little blond baby girl, possibly three years old. When he was asked whose baby it was he had rescued he said he didn't know.

"I was pushed into one of the last boats off," he said. "Miss Hays was in the same boat. We had drawn away from the Titanic and were possibly a half mile away when she sank. We found this little girl in the water a few feet away from our boat some time later."

"The baby was wrappled up in a
